To Chairman Ken Perro &
Zoning Board of Appeals Members

I would like to say that this proposal that has come before you should NEVER have happen. In my opinion, the 46 to 50 unit condominium project should have passed after a year plus of review with the planning board. Hopefully, the Selectmen's LIP agreement will be in force should you decide to approve this project.

That being said, I will ask that you accept my sincere apologies that this 40b project has come before the board of appeals.

Respectfully,

Planning Board member

Bruce DeVault
