Rice Pond Village - Board of Appeals

Thank you for listening to the neighbors of Rice Rd and for protecting our family oriented neighborhood. I have concerns with volume of increased traffic including delivery type vehicles(amazon and Fedex type). I walk daily on Rice Rd and the traffic has increased recently and the speeds have also increased. I usually have to step on to lawns for avoid traffic and getting hit.

I have issues with the density of the proposed project. I have lived for over 30 years in my house and feel very safe since I know the majority of my neighbors.

The railroad crossing is a major issue whether the project goes forward or not. There are no safety gates. The speed and amount of trains have increased over time. Another issue is the cargo being transported, there was a "leak" years ago and I have concerns with derailment due the increased train speed. The Providence and Worcester employee at the meeting could not provide a schedule or what is being transported for safety and security issues. The town would have to pay for the crossing to increased to proper width and to add gates. Also the closeness of the project to National Grid's Substation located on Providence St. This has been a increased safety issue with the power grid and the increased lines into the Substation.

I believe the property was sold with the intent of private family homes being built.

thank you again for protecting our neighborhood and the town of Millbury
